

Pumpkin Templates

What's inside (10 pages)

Large pumpkin outline, a plain outline with no inner lines, two medium and six small pumpkins, shapes (round, tall, wide, mini), jack-o'-lantern face pieces, acorn, leaf and bat templates.

Ways to use them

Color them, paint them, cut them out for a garland, trace them onto felt or construction paper, use them as a stencil for painting a real pumpkin, or glue on the face pieces.

Printing tips

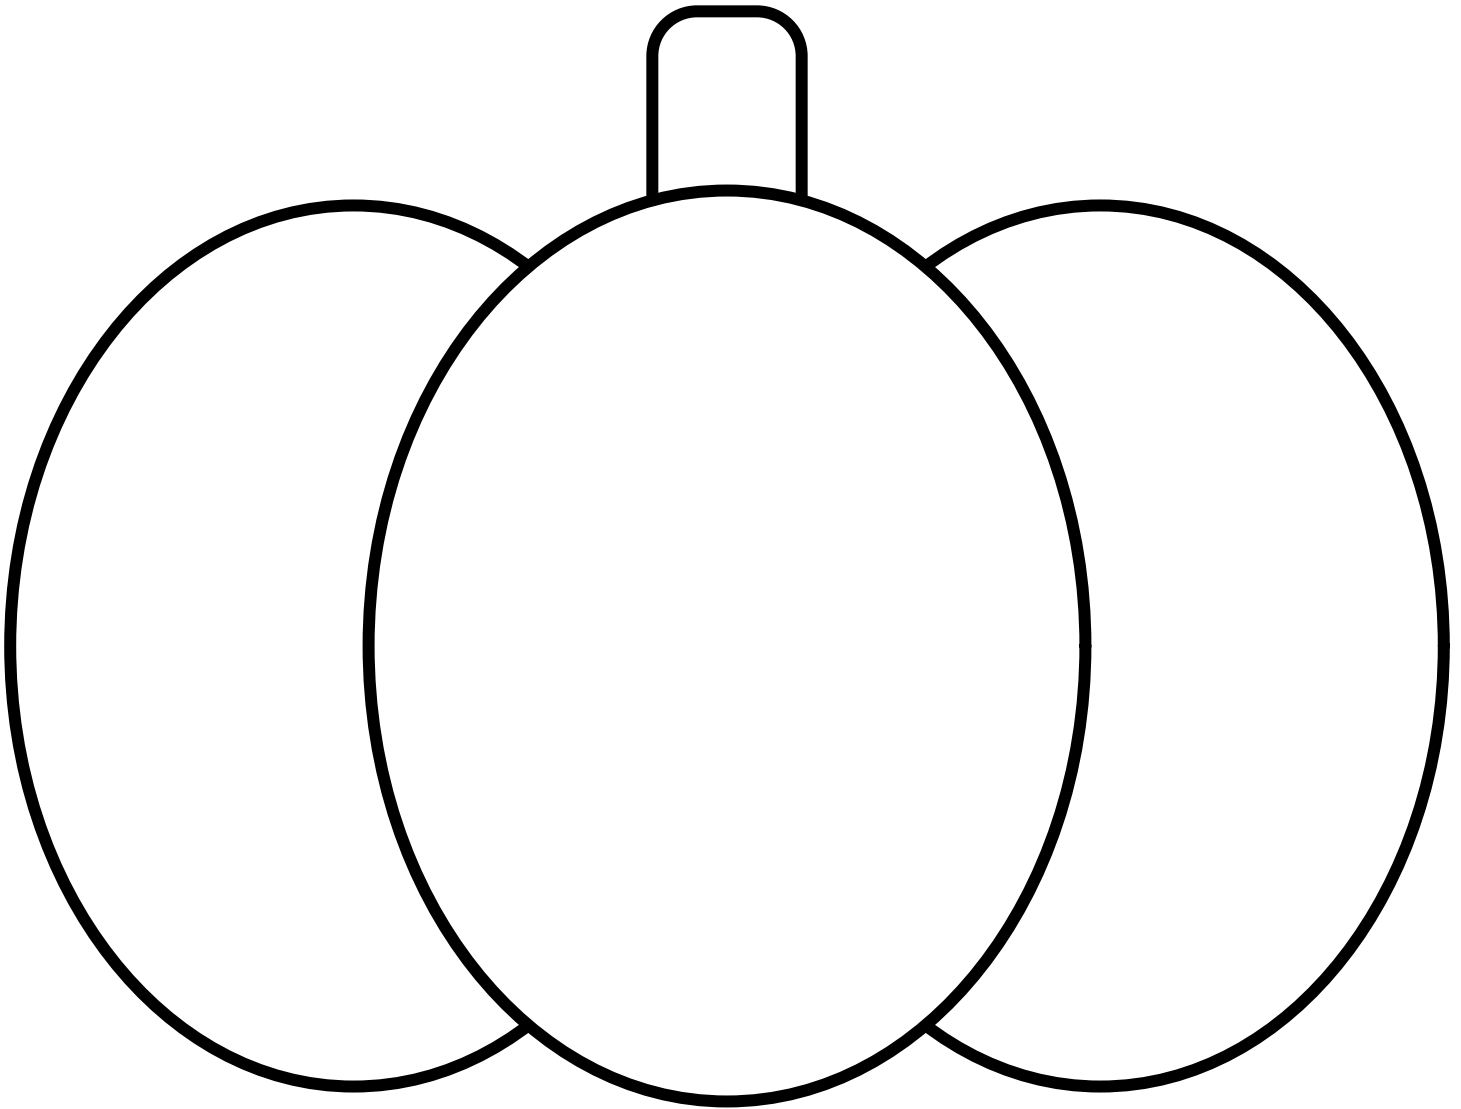

Choose "Fit to page" in your print settings. Use cardstock if you'll trace around the shapes.

Black-and-white printing is fine: every page is line art.

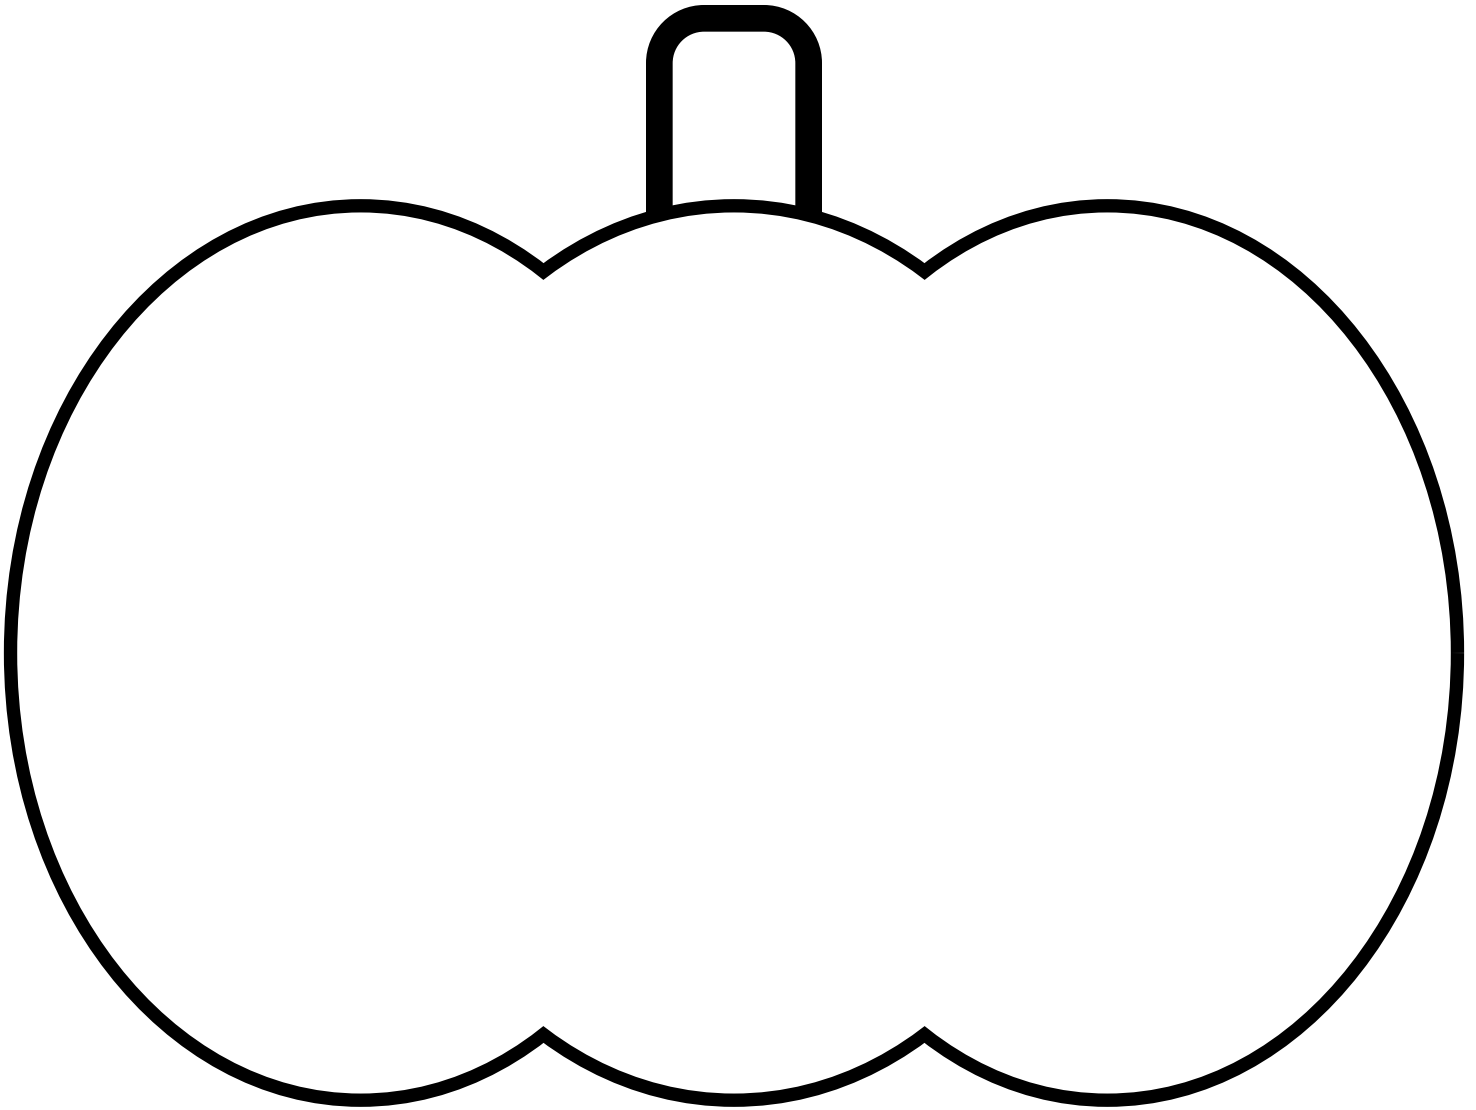

Cutting by age

Under 3: a grown-up cuts, the child colors and sticks. Ages 3 and up: child-safe scissors with the large and medium pumpkins first. Small shapes are trickier, so save them for 4- and 5-year-olds.
